S.D. OF N.Y.

BMaddox Enterprises v. Oskouie, et al., No. 17-CV-1889

Dear Judge Abrams,

I am writing to inform the court that I have become aware that Mr Maddox is, at the very least, attempting to evade and frustrate the enforcement of the Australian judgement from the Supreme Court of NSW, as I referred to in my previous letter (ECF 174).

Attached is a screenshot from his publicly accessible Facebook page. Mr Maddox makes it unequivocally clear that his intention is to avoid and frustrate the Australian judgement by declaration in the Facebook posting (see Figure 1 attached)

He has challenged the Plaintiff in the Australian case, mistakenly believing that avoiding travel to Australia will frustrate the judgement.

It appears he has done the above publicly because he believes that he will not face any consequences regarding his action which have been described by Special Agent Matthew Miller FBI as "extremely disturbing" or, in the alternative, that the attempt to collect the judgement will inevitably fail and that he will have little trouble in fending off any attempts.

This is an ongoing pattern for licensed gun dealer Mr Maddox.

Previously, Mr Maddox has blatantly attempted to use criminal means to disrupt my business and personal life. Specifically, he tried to recruit hackers from Russia and the rest of Asia via a freelance recruitment service (screenshots supplied as verified by FBI Agent Matthew Miller of the Sioux Falls branch office) to "take down" my competing website and manufacture evidence in an effort to make me look guilty because "attorneys are too expensive and time consuming". These actions were even conceded by Mr Maddox' counsel in ECF 56 at page 26 of 28 as being "...Brandon exploring his options and perhaps out of his depth".

Brandon Maddox
 Thanks for the response. Yea, my website <FFL123.com> was hacked. They changed the index page to "no follow" for google indexing, took me 30 days to discover. They logged into my hosting control panel and downloaded all files and changed logo and uploaded to flitrust.com, they now promote via google adwords. Suggestions to resolve this issue? I hired www.dnca.com but they have no guarantee on how to resolve. 3:08 PM

CloudFlare received your copyright infringement complaint regarding: flitrust.com Please be aware CloudFlare is a network provider offering a reverse proxy, pass-through security service. We are not a hosting provider. CloudFlare does not control the content of our customers. Accepted URL(s) on www.flitrust.com: http://www.flitrust.com/ Hosting Provider: RGD1-IPS-28-4-0-23 Abuse Contact: abuse@as57.net We have notified our customer of your complaint, and we have forwarded your complaint on to the responsible hosting provider. You may also direct your report to: 1. The provider where flitrust.com is hosted (provided above); 2. The owner listed in the WHOIS record for flitrust.com and/or; 3. The contact listed on the flitrust.com site. Note: A lookup of the IP for a CloudFlare customer website will show CloudFlare IPs because we are a pass-through network. The actual website is still hosted at the hosting provider indicated above. If the hosting provider has any questions, please have the hosting provider contact us directly regarding this site. Due to attempted abuse of our complaint reporting process, we will only provide the IP of flitrust.com to the responsible hosting provider if they contact us directly at abuser@cloudflare.com. Regards, CloudFlare Abuse

 My website is FFL123.com, hecker are running flitrust.com 3:10 PM

Rabul Islam
 Hi Brandon,
 Thanks for your response. First i can secure your website to make sure it won't get hacked again, then we can take some actions against those who stole your content. Please add me on skype at rabulislam204 so that we can discuss further and make a decision. 3:40 PM

Thanks,
 Rabul

Brandon Maddox
 My Rabul I have a new website going live any day. This will be on a new server and should be more secure. I have developers already almost done with this project. Possible to hire you to focus efforts on getting flitrust.com removed? think google adwords are down, do i need to hire attorney? Best options to remove content from the flitrust.com? I have legal ownership https://www.flitrust.com/FFL123.com_copyright.pdf
 *google adwords seems to be gone 4:05 PM

Rabul Islam
 Yes, you can hire attorney and i can put together the evidence for you and guide the attorney. However, it might take more time to do that. Apart from that, i can also hit and down flitrust.com if you want. 4:23 PM

Figure 2 – Attempting to recruit a hacker on Upwork

Rabul Islam
 so at this point, what do you want me to take care of. Shall i take down the site or only help your attorney to file the case before securing the site/ server? 4:43 PM

Brandon Maddox
 Developers are in Vietnam . https://www.elance.com/s/codeandnicre/ and the testers who test before going live are in Russia... https://www.elance.com/s/wedooa/ 4:43 PM

 Because Quality Matters

Attorney maybe expensive and time consuming. too many other countries involved. If google adwords is gone as a tool to promote, maybe we have time. I work to get website ready for live and then have you review server?

Rabul Islam
 I will protect through them what we do there. You get your web application and server ready then I'll do vulnerability assessment on both of them and secure them. We hit the fake site and take that down for few times until they don't take down your content. 4:45 PM

Brandon Maddox
 okay 4:46 PM

I better go to bed. Any idea where they are from?
 Seen anything like this before? 4:50 PM

Rabul Islam
 Just for the information, vulnerability assessment on any web application takes about 40+ hours and fixing depends on the findings, vulnerability assessment+ fixing findings on the server: about 30+ hours. Take down any domain from online: \$1000 excluding upwork fees. I can give you a discount with the rate of \$55.56 including upwork fees. you, seen many times. Can't tell where they are from without investigating further 4:50 PM

Brandon Maddox
 okay, you think do 70 hrs of work before going live? 4:53 PM

Rabul Islam
 Yes, that will confirm it's security on both server and web app side 4:54 PM

Brandon Maddox
 okay, we shall talk tomorrow sir. 4:54 PM
